

MY COOK BOOK

RECIPE SHARING PLATFORM

BY: KANIKA (2410991389)

WIREFRAME DESIGN

1 . Homepage Layout:

- Header with logo and navigation menu (Home, Login, Signup, Contact Us).
- Search bar for recipe items.
- Main section with a tagline.
- Featured recipes section with cards for different dishes.

1. Homepage:

Introduction to the website's purpose : This area typically provides a welcoming message or a brief introduction to the platform, explaining what "My Cook Book" offers and how users can benefit from it.

Prominent display of featured recipes:

SEARCH BAR FOR RECIPE ITEMS.

- Users can type an item name to search for recipes.
- Efficiency: The search bar allows users to quickly find recipes by typing keywords such as the recipe name, ingredients, or specific cuisine type. This saves time compared to browsing through long lists of recipes.
- Convenience: Rather than scrolling or navigating through multiple categories, users can simply type what they're looking for, enhancing their experience and helping them access content directly.

RECIPE DETAIL PAGE

- Title with the recipe name.
- Detailed description and cooking instructions in a modal.
- Option to view associated video.

HONEY CHILLI POTATO

Here's a step-by-step guide to making Honey Chilli Potato: Step 1: Prepare the Potatoes/Cut Potatoes: Peel and cut 2 large potatoes into thin fries or wedges. Soak Potatoes: Soak the cut potatoes in water for about 15-20 minutes. This helps remove excess starch and makes them crispier. Step 2: Fry the Potatoes Drain and Dry: After soaking, drain the potatoes and pat them dry with a kitchen towel. Coat with Cornstarch: In a mixing bowl, toss the dried potato pieces with 1/4 cup of cornstarch until evenly coated. Heat Oil: In a deep frying pan or kadhai, heat enough oil for frying over medium heat. Fry Potatoes: Once the oil is hot, carefully add the coated potatoes in batches. Fry until they are golden and crispy, about 5-7 minutes. Remove them using a slotted spoon and drain on paper towels. Step 3: Prepare the Sauce Heat a Pan: In a separate pan, heat 1-2 tablespoons of oil over medium heat. Add Garlic and Ginger: Add 2-3 cloves of minced garlic and 1 tablespoon of grated ginger. Sauté for about 30 seconds until fragrant. Add Green Chilies: Add 1-2 sliced green chilies and stir for another 30 seconds. Step 4: Combine Ingredients Mix Sauce Ingredients: In a bowl, combine 2 tablespoons of honey, 2 tablespoons of soy sauce, 1 tablespoon of chili sauce, and 1 tablespoon of tomato ketchup (if using). Mix well. Add Sauce to Pan: Pour the sauce mixture into the pan with garlic and ginger. Stir well to combine and let it simmer for about 1-2 minutes. Step 5: Toss in the Potatoes Add Fried Potatoes: Add the crispy fried potatoes to the pan. Toss them gently in the sauce until well coated. Cook Briefly: Cook for an additional 1-2 minutes to allow the flavors to meld, stirring gently. Step 6: Serve Garnish: Transfer the Honey Chilli Potato to a serving plate. Garnish with chopped spring onions and sesame seeds if desired. Enjoy! Serve hot as an appetizer or snack! Enjoy your delicious Honey Chilli Potato!

AUTHENTICATION PAGES:

- **Login Page:**

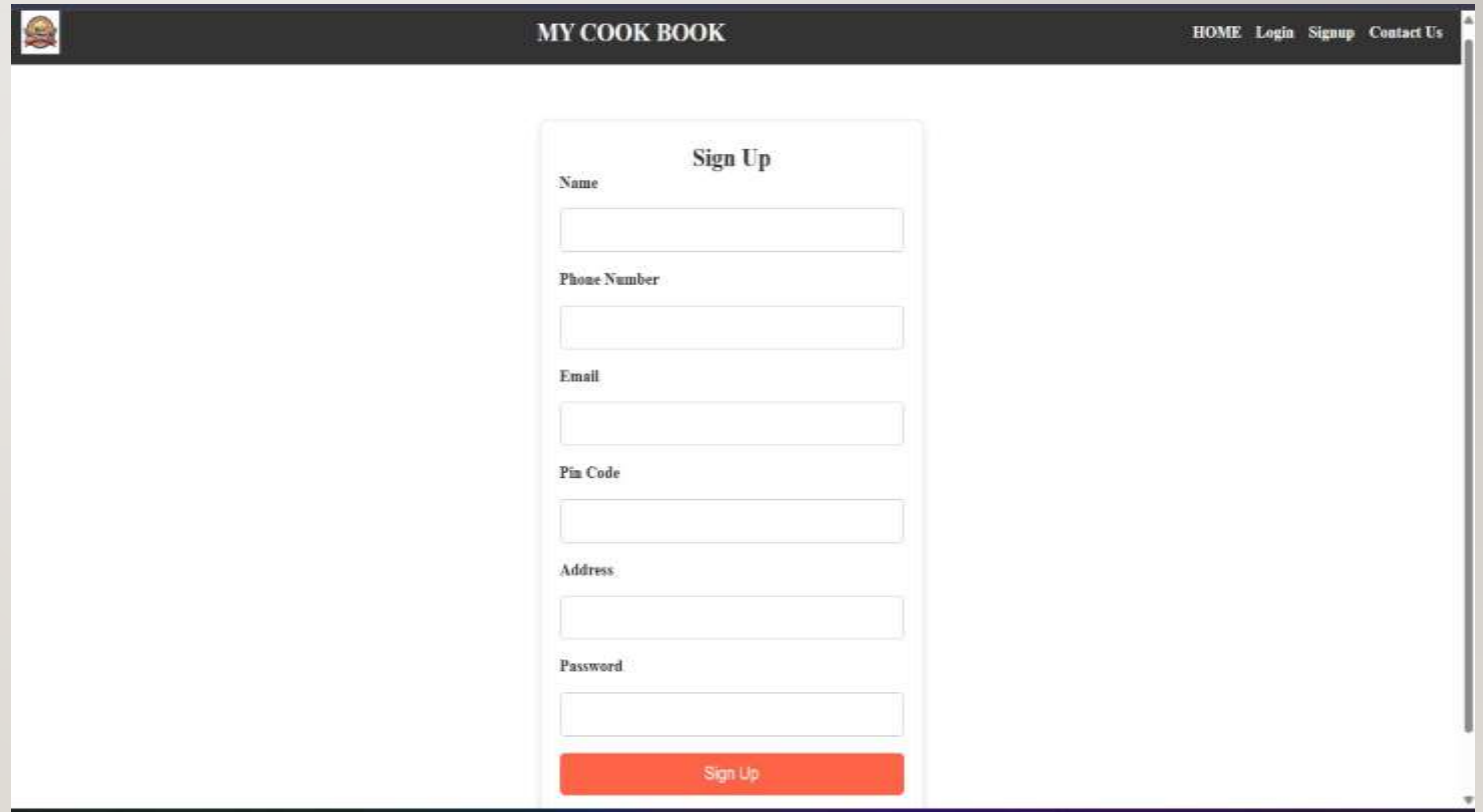

- Fields for email and password.
- "Sign Up" button for new user registration.
- Username/Email Field.
- Password Field
- Error Handling
- Responsive Design

The screenshot shows a web application interface for a login page. At the top, there is a dark header bar with a small logo on the left, the text "MY COOK BOOK" in the center, and navigation links "HOME", "Login", "Signup", and "Contact Us" on the right. The main content area is white and features a centered login form. The form has a title "Login" at the top. Below the title, there are two input fields: the first is labeled "Email" and the second is labeled "Password". Both fields are empty. Below the password field, there is a red button with the text "Sign Up" in white. The bottom of the image shows a wooden floor texture.

SIGNUP PAGE

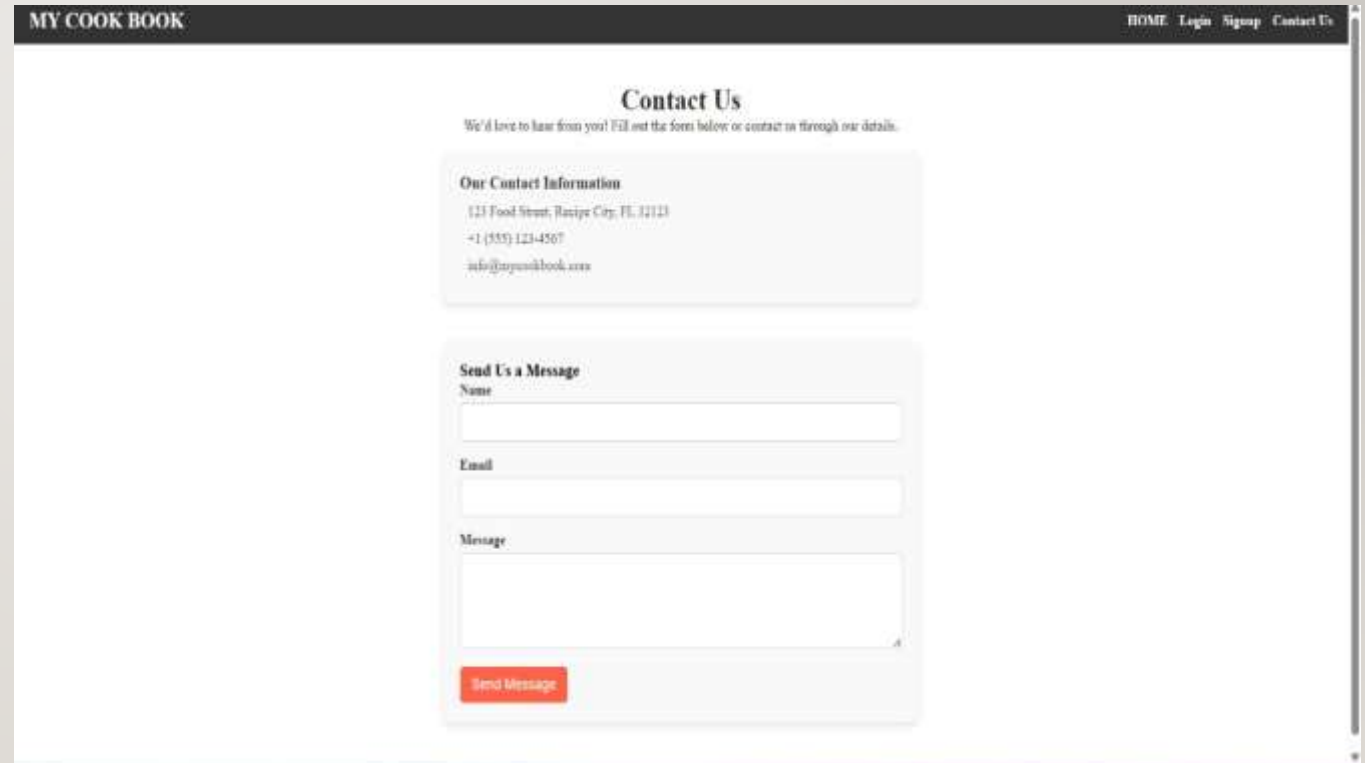

- Fields for user details (name, phone email, etc.).
- "Sign Up" button to create an account.
- User Information Fields
- Terms and Conditions / Privacy Policy
- Error Handling and Validation
- By providing a simple, secure, and efficient registration process, the platform aims to engage users right from the start and set them on the path to exploring all the platform has to offer.

The screenshot displays the 'Sign Up' page of a website titled 'MY COOK BOOK'. The page features a dark header with the site's logo on the left and navigation links ('HOME', 'Login', 'Signup', 'Contact Us') on the right. The main content area is white and contains a central 'Sign Up' form. The form is titled 'Sign Up' and includes the following fields: Name, Phone Number, Email, Pin Code, Address, and Password. Each field is represented by a text input box. At the bottom of the form is a prominent red 'Sign Up' button. The entire page is set against a light gray background.

CONTACT PAGE

- Contact information and a message form.
 - Easy-to-Find Contact Information:
 - Support Categories
 - Contact Page ensures that users can easily connect with the right team to get assistance.

The screenshot shows a web page titled 'MY COOK BOOK' in a dark header. On the right side of the header are links for 'HOME', 'Login', 'Signup', and 'Contact Us'. The main content area is titled 'Contact Us' and includes a sub-header 'We'd love to hear from you! Fill out the form below or contact us through our details.' Below this is a light gray box containing 'Our Contact Information' with the address '123 Food Street, Recipe City, FL 32123', phone number '+1 (555) 123-4567', and email 'info@mycookbook.com'. Another light gray box below contains a 'Send Us a Message' form with fields for 'Name', 'Email', and 'Message', and a red 'Send Message' button at the bottom.

CHOSEN TECHNOLOGIES

- **Front-End:**

- **HTML:** Used for the structure and content of the web pages.
- **CSS:** Used for styling the layout, fonts, colors, and other visual elements. CSS may be used for responsive design and pre-styled components.
- **JavaScript:** To add interactivity (like modal pop-ups, form validation). Used for interactive elements like dropdowns, modals, and real-time updates. JavaScript libraries and frameworks

PROGRESS TRACKING WITH GITHUB PROJECTS

- **Create a GitHub Project Board:**
 - Set up task columns such as "To Do," "In Progress," and "Done."
 - Create issues for each feature (e.g., Homepage layout, Recipe detail, Authentication).
 - Assign tasks to team members and set milestones for development phases.

CONCLUSION

- **User-Friendly Design:** Intuitive navigation with clear categories and visually appealing recipe cards.
- **Responsive Design:** The layout adapts well across different screen sizes.
- "My Cook Book" is designed to enhance the cooking experience by making recipe access easy and efficient, catering to various cuisines and user needs.
- My Cook Book will continue to inspire users and provide a delightful cooking journey
